Professional Summary

Aspiring Java Full Stack Developer with hands-on experience building responsive web applications and RESTful solutions using Java, Spring Boot, JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB. Strong understanding of object-oriented programming, database design, and full-stack development gained through academic and personal projects. Passionate about solving real-world problems, writing clean and maintainable code, and continuously improving technical skills while contributing to high-quality software development.

Technical Skills

Programming Languages: Java, JavaScript, C

Backend Technologies: Spring Boot, REST APIs, Node.js, Express.js

Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS

Database: MySQL, MongoDB

Core Java: OOP, Collections, Exception Handling, Multithreading, JDBC

Tools & Technologies: Git, GitHub, Postman, Maven, VS Code, MySQL Workbench

Concepts: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

PROJECTS

Secure File Transfer (React.js, Tailwind CSS, Node.js, Express.js, MongoDB)

[Live Demo](#) | [GitHub](#)

- Developed a full-stack Secure File Transfer System using React.js, Node.js, Express.js, and MongoDB, enabling authenticated users to securely upload, share, and access files through QR-based file transfer with JWT authentication and role-based access control.
- Implemented key features including user registration/login, protected REST APIs, admin approval dashboard, file upload, inbox, notifications, and QR code generation/scanning, then deployed the application using Vercel (frontend), Render (backend), and MongoDB Atlas (database).

E-Printing Application (React.js, Tailwind CSS, Node.js, Express.js, MongoDB)

[Live Demo](#) | [GitHub](#)

- Developed a full-stack E-Printing platform using React.js, Node.js, Express.js, and MongoDB, enabling users to upload documents, customize print options, manage carts, and place print orders through a responsive web interface.
- Implemented secure REST APIs for authentication, file handling, cart and order management, along with an admin dashboard to monitor print requests and manage orders, contributing to a Hackathon-winning solution.

Food Recipe (React.js, Tailwind CSS, Spring Boot, MySQL, Maven)

[Live Demo](#) | [GitHub](#)

- Engineered a full-stack recipe management system with React.js and Spring Boot, providing recipe search, detailed recipe views, recipe creation, and popular recipe recommendations.
- Implemented RESTful APIs with Spring Data JPA and MySQL for persistent data storage, optimized frontend-backend communication, and deployed the application on Vercel and Render.

EDUCATION

Lords Institute of Engineering & Technology – Hyderabad | 2023 - 2026

Bachelor of Technology, Computer Science & Data Science | CGPA: 8.14

Crescent Junior College – Hyderabad | 2022

Intermediate (MPC) | GPA: 8.95

Little Star High School – Hyderabad | 2020

SSC | GPA: 9.0

EXPERIENCE

Machine Learning Intern

MANAC INFOTECH PRIVATE LIMITED, Hyderabad | Nov 2024 – Jan 2025

CERTIFICATIONS & ACHIEVEMENTS

Hackathon Winner – E-Printing Application | Hackathon Certificate (Sep 2025) – Won a hackathon by developing a full-stack E-Printing Application using React.js, Node.js, Express.js, and MongoDB.
